

LETTER TO MEMBERS: COLLECTIVE BARGAINING

Please post

Dear Members,

It has come to my attention that many members are receiving misinformation in regards to our proposed collective agreement. I have received phone calls and emails regarding both [some] liaison reps and general members, encouraging, colleagues to vote no to the proposed collective agreement. For those bullying or harassing members who disagree with you, these actions will not be tolerated.

At this time, all members are reminded that information has not yet been shared, and hearsay is not a reliable source of information. It is unacceptable and irresponsible for members to share their opinions, thoughts, or beliefs, on a proposal that has not yet been publicized to the membership.

All members who have shared their personal email address with WANTE will receive the proposal prior to March 17, 2022.

Once the proposal is released, it is important for all members to review the document, consider the best option for themselves, and make their own choice when voting begins.

Regards,

Carla Paul

W.A.N.T.E. President
