

November 17, 2022

In order to better serve our members, WANTE is going to be migrating to Shaw as our internet and phone provider. This will provide the office with a faster and more stable internet connection and a modern phone system.

Along with the move, our email addresses will move to the WANTE.ORG domain. This will allow us to expand the number of email addresses we have to include all members for Council and Executive. Check the contact page on the WANTE.org website for these new addresses after the roll out.

We expect the rollover to happen by the end of the month, during this time there will be an interruption of service for up to 48 hours. Once we have an exact date we will pass it along.

Thank you,

Executive and Council
